### About us...

In 1977 the Thomas-Wildey-Institute was founded by Dr. Karl Daxl in Munich, who dedicated his work new medicine steps.

In the meantime the TWI proudly presents a huge variety of physicians, institutions, research facilities and members of different medical, economical, social and political backgrounds, in order to process a compliant healthcare.

*clinical- & practical basic research*

„Medicine & health“

Potential of the 21. century or...  
existential primary health care ...

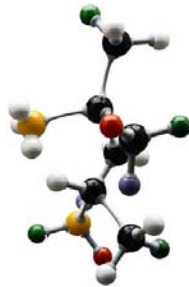

Demands and requirements of a

- healthy environment and business world,
  - personal health and its support,
  - retirements provision,
- are increasing.

In the future economic and health policy will more interact with medical research and development.

New concepts and solutions will be integrated.

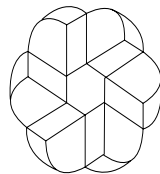

Purpose of the TWI is the national and international promotion of clinical and practical basic research of

- prevention,
- rehabilitation
- therapy and diagnostics

in different medical and constitutional branches, facilities, institutions and its results and perceptions.

Main focus of the Thomas-Wildey-Institute e.V.

- Coordination and accomplishment of scientific , experimental and clinical research and study-works.
- Scientific cooperation with rehabilitation, cure- and wellness institutions, sports centers, Olympic training centers, sports associations, et cetera of all countries, in different medical and other constitutional fields.

- Scientific as well as official analysis of research results and perceptions.

- Organization and accomplishment of training, symposia, seminars, advanced training, courses and workshops.
- National and international cooperation in health policy.
- Practical application of research results and consolidated findings, qualified by the TWI for national and international institutions/ centers.
- Establishing and enlargement of an effective practice-orientated quality management in health care systems and its implementation.

Application for membership

Yes, I would like to make a contribution to medical and health research and becoming a member of the TWI e.V. — I agree to the contractual provisions of the Thomas-Wildey-Institute e.V.

Membership

1. Everybody can become a member who is a natural and legal person, willing to fulfill the TWI targets.
2. The membership is given by a form of an application document.
3. Without giving reasons the executive board will decide the issue.
4. The membership expires by death, exit, exclusion or premium arrears.
5. The exit is happening by a written statement to the executive board, which has to be send as a certified mail at least three months before the beginning of the next quarter.
6. Infringing the provisions against the purposes, interests and terms/articles of the TWI, the board of directors is able to exclude a member from the TWI with a two thirds majority. At the time of 14 days after forwarding and exclusion without suspensiveness the member.
7. Membership-fee is 120 Euro per annum.
8. The membership-fee is paid by an automatic debit transfer system.
